

Windows 10 Keyboard Shortcuts

Windows Key Shortcuts

The Windows key gives you quick access to Windows functionality. Look for the Windows key to the left of the **Spacebar** (usually between the **Ctrl** and **Alt** keys); sometimes also to the right of the spacebar. (On smaller laptop keyboards, the Windows key may in a different location such as the upper-right corner).

Pressing the Windows key alone (shown below as **⊞**) or in combination with other keys enables you to move around and work with Windows without using the mouse or other pointing device.

Select this	To do this
Windows key ⊞ or Ctrl + Esc	Open and close the Start Menu.
⊞ + E	Open the File Explorer window (previously called Windows Explorer).
⊞ + D	Minimize all open windows and Show Desktop (repeat to restore).
⊞ + M	Minimize all open windows.
⊞ + Shift + M	Restore after minimizing all windows.
⊞ + Tab	Open Task view to see all open windows.
⊞ + 1 , ⊞ + 2 , etc.	Switch to the desktop and launch the <i>n</i> th application in the taskbar. For instance, ⊞ + 1 launches the application that is first in the list, numbered from left to right.
⊞ + T	Move or cycle through applications on the taskbar.
⊞ + R	Open the Run command.
⊞ + Pause	Open the System Properties portion of the Control Panel.
⊞ + U	Open the Ease of Access Center window.
⊞ + X	Open the advanced menu in the lower-left corner of the screen.
⊞ + L	Switch between users or lock desktop while unattended.
⊞ + I	Open the Settings app.
⊞ + , (comma)	Peek at the desktop. Hold to keep peek open.
⊞ + ; (semi-colon) or ⊞ + . (period)	Enable emoji keyboard.
